

Elliot Gould

PHD CANDIDATE, RESEARCH ASSISTANT, CONSULTANT

School of Ecosystem and Forest Sciences, University of Melbourne

0406680382 | elliott.gould@unimelb.edu.au | [egouldo](https://www.linkedin.com/in/egouldo)

Elliot Gould is an Australian citizen and PhD candidate at the School of Ecosystem and Forest Sciences, and a Quantitative Research Assistant on the repliCATS project at the School of History and Philosophical Studies, University of Melbourne. Their PhD investigates the transparency and reproducibility of ecological models in applied ecology and conservation decision-making. In their role as a Quantitative Research Assistant, Elliot has managed a small team of researchers to develop a data provisioning platform for the repliCATS project, and taken lead responsibility for data management, as well as contributing to research on metascience. They have an enthusiasm for teaching and skill-sharing, particularly with regard to building a strong community of practice in emerging open-science methodology and computational biology within ecology and conservation. Elliot's research seeks to use data science techniques to advance the open-science movement by improving transparency and reproducibility, focussing on ecology and conservation Science. Other research interests include decision-theory, Structured Decision Making, and plant ecology (especially grasslands of the Victorian Volcanic Plains).

Education

Doctor of Philosophy, Science

UNIVERSITY OF MELBOURNE

November 2017 - Present

- Thesis Title: Reproducibility and Transparency of Ecological Models in Applied Ecology and Conservation Science

Master of Science (Distinction)

UNIVERSITY OF MELBOURNE

March 2012 - December 2015

- Research Training Degree, with 70% original research and 30% coursework. Course Weighted Average Mark: 82.312
- Thesis Title: Managing Grasslands with Models: Resolving uncertainty and allocating effort among a suite of sites.

Bachelor of Science

UNIVERSITY OF MELBOURNE

March 2005 - November 2011

- Major in Ecology, First Class Honours Average

Bachelor of Arts

UNIVERSITY OF MELBOURNE

March 2005 - November 2011

- Major in Indonesian, First Class Honours Average

Employment History

Quantitative Research Assistant - repliCATS, SCORE Program

University of Melbourne

SCHOOL OF HISTORICAL AND PHILOSOPHICAL STUDIES, SCHOOL OF BIOSCIENCES

February 2019 - Present

- Systematising Confidence in Open Research and Evidence (SCORE) is a Research Program initiated by the Defense Advanced Research Projects Agency (DARPA) that aims to develop and deploy automated tools to assign 'confidence scores' to Social and Behavioural research results and claims in light of recent evidence about the 'Replication Crisis' besetting Science. The repliCATS project is one team within the SCORE project, based in Melbourne. In this role, Elliot lead a small team within the repliCATS project to build data analysis software and infrastructure to manage and deliver data products to internal teams and external partners. Research components of the role include modelling to investigate predictors of replication success.

Demonstrator / Tutor

University of Melbourne

SCHOOL OF BIOSCIENCES

2012 - Present

- Environmental Risk Assessment: 2016, 2017, 2018, 2022, 2023
- Vegetation Management and Conservation, 2018, 2019. In addition to demonstrating, I co-developed a teaching and learning module, and developed and delivered a workshop teaching the basics of data-science in R using data collected by the students.
- Applied Ecology: 2014, 2015.
- Ecology: 2014.
- Biology of Cells and Organisms: 2012, 2013, 2014, 2015.

Research Assistant, Various Roles

University of Melbourne

SCHOOL OF BIOSCIENCE, SCHOOL OF GEOGRAPHYS

2015 - Present

- National Environmental Science Programme, Threatened Species Recovery Hub: Conservation actions for Threatened Ecological Communities.
- Various plant ecology and Structured Decision Making projects, involving: data analysis and visualisations, building shiny Apps, model building and testing.

Scholarships and Awards

Metascience 2023 travel award

ORGANISATION

2023

- \$300 USD travel award to attend the Metascience 2023 conference in Washington, D.C

AIMOS top-up scholarship

ASSOCIATION FOR INTERDISCIPLINARY METARESEARCH AND OPEN SCIENCE (AIMOS)

2022

- AIMOS will award up to four top-up scholarships per year to PhD or Masters students working on a meta-research project.

Research Excellence Award for Interdisciplinary Research

UNIVERSITY OF MELBOURNE

2022

- Nominees will have been collaborators in interdisciplinary research of outstanding influence, that is, the establishment of new, or advancing of existing, collaborations and programs that draw on multiple disciplines typically involving multiple faculties or schools.

Melbourne Centre of Data Science Doctoral Academy Fellow

MELBOURNE CENTRE FOR DATA SCIENCE, UNIVERSITY OF MELBOURNE

2021

- The MCDS Doctoral Academy aims to bring together a campus wide multi-disciplinary cohort of PhD students (MCDS Doctoral Academy Fellows) to share their research, domain challenges and thoughts around the use, implementation and application of data science in their fields.

Australian Government Research Training Program (RTP) Scholarship

THE UNIVERSITY OF MELBOURNE

2017 - Current

- Awarded to high-achieving students undertaking graduate research at the University of Melbourne.

Research Consultancy, Professional Membership

- This research consultancy contributes to Elliot's PhD. This work involved the design and delivery of a collaborative workshop with DELWP in order to develop preregistration templates and methodology relevant to ecological modelling, in particular within decision-making and applied contexts.

Society for Open, Reliable, and Transparent Ecology and Evolutionary Biology (SORTEE)

Professional Membership

SECRETARY / TREASURER, WWW.SORTEE.ORG

September 2020 - 2022

- SORTEE is a service organization which brings together researchers working to improve reliability and transparency through cultural and institutional changes in ecology, evolutionary biology, and related fields broadly defined. Anyone interested in improving research in these disciplines is welcome to join, regardless of experience. The society is international in scope, membership, and objectives. Elliot is a founding member and co-chair of the executive committee.
